

Sarah Gotch has provided a submission to the committee.

NT LG council on which they are commenting: Palmerston, City of

Sarah Gotch's submission:

I do not believe that Palmerston would benefit in any way by implementing a four ward structure b in the City of Palmerston. This is an unnecessary proposal. I have resided in the City of Palmerston for 22 years, and I have never felt that I have ever been unfairly represented under the current structure. The City of Palmerston is by far the most progressive, inclusive and proactive Local Council in the Northern Territory by a country mile. To consider introducing Wards would be a monumental waste of time. This Council is both cohesive and collaborative across all reaches of their Local Government Area. Thank you for considering my feedback. I trust I am not alone in sharing this sentiment.

Kind regards, Sarah
