Dear Committee

I wish to provide feedback on the 'Electoral Boundaries Review' being undertaken to shape electoral boundaries ahead of the 2024 Territory Election, in accordance with the *Electoral Act 2004*.

My feedback is in regard to the Electorate of Sanderson.

It is my experience that the current boundaries are ideal in that they include four complete suburbs that have interests in common and are positioned around the Marrara sports precinct as a central hub.

The current enrolment numbers are within 10% of quota and whilst there will be a future increase in electors with the development of the old KOA Caravan Park in Marrara, this will not be before August 2024.

Please do not hesitate to contact my office if you require further information.

Yours sincerely

Kate Worden MLA
